Group activity

The Johnson family includes Marv (age 34), Gail (33), Andrew (8) and Molly (4). What are some investment goals that might be appropriate for this family? What types of investments might be used to achieve these goals?

Group activity

The Johnson family includes Marv (age 34), Gail (33), Andrew (16) and Molly (14). What are some investment goals that might be appropriate for this family? Discuss what short-term, mid-range and long-term goals each family member may have.

After each team has completed the exercise, present it to the group. You may have similarities or differences in which you should openly discuss your reasons. After you have identified their potential goals, discuss how each member may achieve their goal.
